

September 2026 PARENT INFORMATION GUIDE

Advanced CanSkate

Dear Parents and Skaters,

The Thunder Bay Skating Academy is excited to welcome all of our returning members to our **ADVANCED CANSKATE Program**. We are excited to spend the next **4 Tuesday sessions** (September 1, 8, 15, & 22 at Itec Community Arena - formerly Current River Arena) with you to kickstart the 2026-2027 season.

What can you expect from a typical session?

1) On your first day of skating please enter the rink and **follow the posted signs** to make your way to our hanging Advanced CanSkate name tag board which will be **located near the entrance to the ice gate** which will contain your skater's **name tag**. The coloured **"star"** on your skater's name tag indicates which group they are in (this is subject to change after our initial assessments on the first day). Our name tag boards also act as "hanging mailboxes" and will be a place to pick up your name tag at the start of **every** session as well as a place to receive notices and reminders as applicable. We ask that you please have the name tag visible on your child's jacket as this will assist us in grouping the skaters. Once you have picked up your skater's name tag you can then proceed to get them ready for the ice by putting their skates & helmets on (you may use available dressing rooms or the stands to get ready).

2) Once skaters enter the ice surface, we will begin with a 10 minute warm up, then they will divide into their groups for a 30 minute Lesson/Teaching segment. After the lesson segment they will come together for a 5 minute Challenge/Creative/Independent practice time ending with a 5 minute cool-down. The session will focus on continuous movement emphasizing the use of newer and more dynamic group teaching concepts. If you were in our CanSkate Stage 1-2 program last season, this is a continuation of what your skaters did last year, focusing on moving them through to complete their CanSkate Badges.

3) Our program is based on circuits. Each group will start in the same place every session and then move to a different spot on the ice every ten minutes until they have completed all three circuits. This format is great for keeping skaters moving continuously and learning new skills in the process.

Please trust our program. We realize that the first few sessions may seem overwhelming. Please encourage your skater to stay with their group for the most optimal learning.

Here are some tips to make the maximize your sessions:

The goal of our learn to skate sessions is to ensure that your skater feels comfortable on the ice while continuing to develop their skating skills.

DOs

- Do celebrate the small successes (achieving skills, ribbons & badge levels takes lots of practice & repetition)
- Do allow your skater and tell your skater that it is okay to fall
- Do allow your skater to struggle and tell them it's normal & to keep trying their best
- Do encourage your skater to listen to their coaches & follow the circuit (obstacle course) - they have been designed to teach your skater the progressions of the basics of skating. Your skater's circuits will be focusing on the Canskate Stage 1-3 Badge levels (for CanSkate Stage 1-2; Pre-Teen/Teen/Adult Beginner) and Stage 3-6 Badge levels for Advanced CanSkate
- Do explain to your skater that it is ok for the coaches to ask & give them "hands on" assistance - this will help them not only start to feel more comfortable on the ice but also help them to become fully independent.

DON'Ts

- Parents, please don't stand at the boards (either by the glass or in the player's benches area) - it is important to have the skaters be independent on the ice so that they aren't distracted and will be focused on what the coaches are teaching them.
- Under **NO circumstances are parents allowed onto the ice surface**. Coaches will bring skaters to their parents if the situation warrants.

What do I need to bring?

When preparing for the first session, it is a good idea to dress in light layers and wear clothing that allows for active movement. Water resistant pants and a jacket on the ice along with waterproof gloves/mittens - **NO** jeans or restrictive snowpants please (wearing bulky or tight fitting clothing can hinder a skater's ability to perform the skills)

***please ensure the fabric of the mittens/gloves you choose will not "stick" to the ice surface!**

****Fuzzy mittens/gloves are not permitted as they can stick to the ice leaving strands of the material on the ice making it extremely slippery and unsafe while also causing skaters (& coaches) to slip and fall unnecessarily.**

Skate Canada
Patinage Canada

CanSkate
PatinagePlus

Please be aware that we do require that all skaters on the ice have on a [CSA approved hockey helmet as well as proper skates](#). As per our governing body "Skate Canada" all skaters must wear a CSA approved hockey helmet at all times while on the ice surface. **There are no exceptions.**

Please ensure that your skater has supportive skates to ensure success in our programs. **Single bladed, leather lace up figure or hockey skates are preferred.** Molded skates are not recommended as they are inflexible. Avoid buying a skate too large, poor fitting equipment will cause discomfort. Skates typically fit one size smaller than your shoes. Please make sure the boot does not have any wrinkles. Ensure that your skater can wiggle their toes slightly and that their heels do not lift inside more than ¼ inch. Any excess laces should be tucked in or tied up so that they do not hang loose or drag on the ice.

Poorly equipped skater

Properly equipped skater

SKATES ARE TIED TOO LOOSELY
OR ARE TOO BIG

SKATES TIED CORRECTLY

Equipment Care

To protect the skate blades, hard skate guards should be worn in any area that is not protected by rubber mats. At the end of every class, the blades should be wiped with a dry cloth and protected by blade covers (also known as soft guards) ****DO NOT put the hard guards back onto the blades after drying them as this will cause the blades to rust.** Skates should be sharpened as soon as they are purchased and then every 5-6 weeks thereafter. The bottom pick on figure skates should never be removed during sharpening - the pick is part of the design and is essential to proper balance.

Should you have any questions about skate fit, the proper way to tie your skater's skates or anything else pertaining to your skater's equipment please don't hesitate to speak with the Lead Coach.

Schedule

Attached in a separate pdf is a complete **ice schedule** for your skater's session. This schedule will include any dates where the ice was not available, time changes, theme days and all other necessary information. These will also be posted on our website under our schedules tab if you misplace this initial copy.

Evaluation & Assessment

Skate Canada has an extensive reward system to track your skater's progress. There are three strands to each badge: Agility, Balance and Control (the ABC's of basic skating). Once a skater has achieved all three strands gaining all three colour ribbons, they will receive their Stage Level Badge. Assessments are ongoing however we do have two specified "Assessment Days" during our season (the second & third last weeks are dedicated as assessment only days). It is strongly encouraged that your skater attend these days (if possible). Achievements will be handed out on the last day of our season.

	Stage 1	Stage 2	Stage 3
Balance	• Fall down & get up	• Fwd 2-ft sculling	• Fwd stationary blade push
	• Fwd push/glide sequence	• Fwd 2-ft to 1-ft glide	• Fwd 2-ft slalom
	• Fwd 2-ft glide	• Fwd push/glide sequence • Fwd 1-ft glide with speed	• Fwd circle thrusts • Walking crosscuts • Fwd 2-ft to 1-ft curve glide
Control	• Snow slide steps	• Fwd stop	• Fwd stop with speed
	• Bwd 2-ft skating/walking	• Bwd 2-ft sit glide	• Bwd 2-ft sculling
	• Bwd 2-ft glide	• Bwd 2-ft to 1-ft glide • Bwd push/glide sequence	• Bwd 2-ft to 1-ft glide • Bwd push/glide sequence • Bwd 1-ft glide
Agility	• 2-ft turn	• Fwd 2-ft turn	• Fwd 2-ft quick turn
	• 2-ft jump	• Bwd 2-ft turn	• Bwd 2-ft quick turn
	• Fwd skating perimeter of ice	• Fwd 180° glide turn • Fwd 2-ft jump	• Fwd 360° step turn • Bwd 2-ft jump • Fast fwd perimeter skating

Coaching Staff

All coaches are nationally certified coaches trained specifically in teaching the mechanics and proper technique of skating. They have extensive training by Skate Canada and the Coaching Association of Canada, along with a completed BackCheck and First Aid Training. Each rink is assigned a **Lead Coach** to oversee the operations of the rink along with other coaches who run the circuits at each station. Our coaches are clearly visible in a grey Thunder Bay Skating Academy jacket.

Where Can I Get More Information?

Be sure to stay tuned to your emails for news and events. Our website and social media pages are always full of information about upcoming events, time-changes and fundraising initiatives. Check us out at thunderbayskating.com, like us on Facebook & follow us on Instagram!

If you have any questions or concerns please don't hesitate to contact us.

Thank you for your interest in CanSkate, Canada's premier learn-to-skate program.

Yours in skating,
