

WELCOME TO OUR WINTER 2025 SESSIONS

Parent and Tot Program

Dear Parents and Skaters,

The Thunder Bay Skating Academy is excited to welcome all of our new and returning members of our Learn to Skate Programs to what we expect to be a very exciting, quick and eventful season.

What can you expect from a typical session?

1) On your first day of skating please enter the rink and make your way to our hanging name tag boards which will contain your **name tag**. The coloured “**star**” on your skater’s name tag indicates which group they are in (this is subject to change after our initial assessments on the first day). Our name tag boards also act as “hanging mailboxes” and will be a place to pick up your name tag at the start of **every** session as well as a place to receive notices and reminders as applicable. We ask that you please have the name tag visible on your child’s jacket as this will assist us in grouping the skaters. Once you have picked up your skater’s name tag you can then proceed to get them ready for the ice by putting their skates & helmet on (you may use available dressing rooms or the stands to get ready).

2) We will begin each session with a 5 minute off-ice warm up. Please meet the coach leading the warm up near the entry gates at each arena. Once the skaters & parents (Parent & Tot) enter the ice surface they will join their groups, as indicated by their coloured star sticker on their name tag and the signs on the ice. Each group is clearly identified by a start marker with the coloured flag (see image). Skaters match their sticker to the flag.

3) Our Parent & Tot Program is the launch point into our Learn to Skate Program which is based on circuits. Each group will start in the same place every session and begin the 15 minute “Lesson” segment of the session with their assigned Coach. After the first few weeks (& dependent on progression) groups will start to use more & more of the ice surface until circuits can be implemented.

5) To conclude our session skaters will be involved in a 7 minute “FUN” activity or game before heading to the exit gate to have their name tags collected and receive their incentive for the day. This allows skaters of all levels to be a part of the group as a whole and to be able to have time to cool their bodies down prior to leaving the ice.

Please trust our program. We realize that the first few sessions may seem overwhelming. Please encourage your skater to know their colour and to stay with their group for the most optimal learning.

Here are some tips to make the maximize your sessions:

The goal of the Parent & Tot sessions is to ensure that your skater feels comfortable on the ice. It is not meant for the Parent or Coach/Program Assistant to always carry around, support, or hold up their skater for the whole session. The role of the Parent/Program Assistant is to be there to encourage their skater to try to do the things the coaches are instructing them to do on their own. Our goal is to eventually have all the skaters achieve independence on the ice.

DOs

- Do celebrate the small successes (falling safely, standing up, balancing on their own)
- Do allow your skater to fall
- Do allow your skater to struggle
- Do follow the circuit (obstacle course) - they have been designed to teach your skater the progressions of the basics of skating. Your skater's circuits will be focusing on the Pre-Canskate level.
- Do allow the coaches to be "hands on" with your skater - this will help them not only start to feel more comfortable on the ice but also start to become more independent.

DON'Ts

- Don't hold your skater the entire time - it is important to teach them that falling is acceptable and everyone needs to learn how to get up (most skaters struggle with getting up on their own at first, keep encouraging them to try on their own, helping only if needed).
- Don't leave your group - please stay in your assigned area so that our Coaches not only know where you are but also to ensure that they are learning.

What do I need to bring?

When preparing for the first session, it is a good idea to wear some warm pants and a jacket on the ice along with waterproof gloves/mittens. ***please ensure the fabric of the mittens/gloves you choose will not "stick" to the ice surface! **The use of skating training aids/walkers is not permitted.**

Please be aware that we do require that **ALL SKATERS & PARENTS** have on a **CSA approved hockey helmet**. As per our governing body "Skate Canada" all skaters must wear a CSA approved hockey helmet at all times while on the ice surface. There are no exceptions.

Please ensure that your skater has supportive footwear to ensure success in our programs. Single bladed, leather lace up figure or hockey skates are preferred. Molded skates are not recommended as they are inflexible. Avoid buying a skate too large, poor fitting equipment will cause discomfort. Skates typically fit one size smaller than your shoes. Please make sure the boot does not have any wrinkles. Reminder, that skates should be sharpened as soon as they are purchased.

Schedule

We have attached a complete ice schedule for your skater's session. This schedule will include any dates where the ice was not available, theme days and all other necessary information. These will also be posted on our website under our schedules tab if you misplace this initial copy.

Evaluation & Assessment

Skate Canada has an extensive reward system to track your skater's progress. Our Pre-Canskate & Parent and Tot programs focus on mastering the skills in the PreCanSkate Ribbon before beginning the CanSkate program, which has three strands to each badge level: Agility, Balance and Control (the ABC's of basic skating). Once a skater has achieved all three strands gaining all three colour ribbons, they will receive their Stage Level Badge.

Coaching Staff

All coaches are nationally certified coaches trained specifically in teaching the mechanics and proper technique of skating. They have extensive training by Skate Canada and the Coaching Association of Canada, along with a completed BackCheck and First Aid Training. Each rink is assigned a **Lead Coach** to oversee the operations of the rink along with other coaches who run the circuits at each station. Our coaches are clearly visible in a grey Thunder Bay Skating Academy jacket.

Where Can I Get More Information?

We have lots to share this season. Be sure to stay tuned to your emails and check your skaters mailbox for exciting news and events. Our website and social media pages are always full of information about upcoming events, time-changes and fundraising initiatives. Check us out at thunderbayskating.com, like us on Facebook & follow us on Instagram! Feel free to share!

If you have any questions or concerns please don't hesitate to contact us.

Thank you for your interest in the Parent & Tot program, part of Canada's premier learn-to-skate program Canskate.

Yours in skating,

Thunder Bay Skating Academy

	Pre-Can Skate
Skills Required	• Fall down & get up
	• Balance on 2 feet
	• Move forward
	• Make snow
	• Move backward
	• 2-ft twist
	• 360° march
	• 2-ft jump
